Exclusive conference

Head Games' Emerson travels to Germany

Maureen Emerson, an esthetician for Head Games salon, was one of 17 people worldwide invited to attend the exclusive International Dr. Hauschka Estheticians' Conference at its corporate headquarters in Eckwalden, Germany.

Emerson received the invitation after completing the Dr. Hauschka training for Rhythmic Body Treatment III. She is now 1 of 8 practitioners with this training in the U.S.

"Just being licensed by Dr. Hauschka Skin Care is a great honor," Emerson said. She added that there are only about 2,300 licensed practitioners in the world. "To be invited to the conference was fantastic. There were talks on anthroposophy and herbology, hands-on workshops and tours through the biodynamic WALA garden."

For the last 40 years, Dr. Hauschka Skin Care has offered treatment methods and products based on a holistic philosophy. For more visit www.drhauschka.com. For more on Head Games go to www.headgameshair.com.
